With the Silent Salesman Mobile App you can join the 'mobile movement' for less than 55¢ a day! Unlimited Text\* and Push messaging included! \*Text messagin only available in the U.S. and Canada. Push messaging available world-wide.

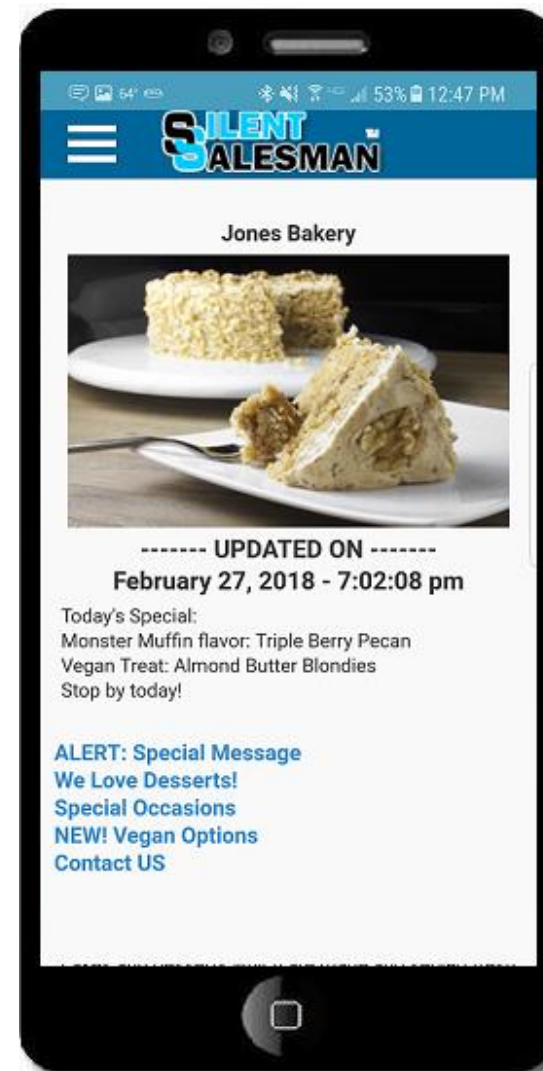

# Your Own Silent Salesman Mobile App

Your customers download, register, & enter your shortcode once, and you can reach them for life!

When your customers and prospects install your app, you have the benefit of being in front of them on the screen they are looking at 150+ times a day (that is the reported number of times the average person checks their smartphone every day according to abcnews.go.com), AND being able to proactively reach them by unlimited push and text messaging to all of your app subscribers at one time, no individual messaging required.

Use your Silent Salesman App to let your customers access all your digital properties in once place (your website, social media pages, and more) plus videos, images, and even links to your online order form.

Unlimited Text & Push Messaging  
Use to send an announcement to all your customers at one time with your own 'type & press submit' back office interface, no cellphone needed. Use for limited time specials, events, and "app club" notices.
